REPORT OF INDEPENDENT AUDITOR

To the Shareholders of Asia Corporate Development Public Company Limited

I have audited the accompanying consolidated financial statements of Asia Corporate Development Public Company Limited and subsidiaries which comprise the consolidated statement of financial position as at 31 December 2014, the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes disclosure summarizing significant accounting policies and other explanatory information. I have also audited separate financial statements of Asia Corporate Development Public Company Limited which comprise the separate statement of financial position as at 31 December 2014, the related statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes disclosures summarizing significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

The Company's management is responsible for the preparation and the fair presentation of these financial statements in accordance with Thai Financial Reporting Standards and for such internal controls as management determined to be necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Thai Standards on Auditing. Those standards require that I comply with ethical requirements, including planning and performing the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidences about the amounts and disclosures in the financial statements. The selected audit procedures depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of financial statements.

I believe that the audit evidences I have obtained are sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position as at 31 December 2014 and the consolidated results of operations and cash flows for the year then ended of Asia Corporate Development Public Company Limited and subsidiaries, and the separate financial position as at 31 December 2014 and the results of operations and cash flows for the year then ended of Asia Corporate Development Public Company Limited, in accordance with Thai Financial Reporting Standards.

Emphasis Matter

We draw attention to Note 1 to the financial statements which describes the existence of a material uncertainty which may cast significant doubt about the Company's and two subsidiaries' ability to continue as a going concern.

In addition, we also draw attention to Note 13 to the financial statements which describes about the significant disposal of deposit for land purchase to other party which the condition of settlement in the future. My opinion is not qualified in respected of the above matters.

Mr. Somckid Tiatragul Certified Public Accountant

ASIA CORPORATE DEVELOPMENT PUBLIC COMPANY LIMITED AND SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS 31 DECEMBER 2014 AND 2013

1. GENERAL INFORMATION

Formerly the Company was registered under the name "Mida-Medalist Entertainment Public Company Limited" ("The Company") and was registered as a public company in the Stock Exchange of Thailand in the year 2005. The Company registered the change of its name to Asia Corporate Development Public Company Limited on 1 0 October 2013. Currently, the Company has its registered office at 405 Soi 13 Bond Street Road, Bang Pood Subdistrict, Pak Kret District, Nonthaburi, 11120.

The Company and its subsidiaries have their operations in Thailand and were formerly engaged in the manufacturing and distribution of games equipment. Recently, the Company changed its business to; real estate development and marketing and advertising business. The Company stopped all its games equipment manufacturing operations and sold related assets during the year.

During the year ended 31 December 2014, the Company doesn't have income from normal operations and has loss from operations in its separate financial statements of Baht 116.63 million. Besides, Boost plus Company Limited and Medalist Vision Company Limited, two subsidiaries, have loss from operations amounting to Baht 43.04 million and Baht 1.32 million, respectively, with capital deficiency of Baht 33.56 million and Baht 14.90 million, respectively. These conditions indicate the existence of a material uncertainty which cast significant doubt about the Company's and two subsidiaries' abilities to continue as a going concern. However, the Company and subsidiaries have not made any reclassification of major assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF FINANCIAL STATEMENT PREPARATION AND PRINCIPLES OF CONSOLIDATION

2.1 Basis of financial statement preparation

The accompanying financial statements have been officially prepared in Thai, and in accordance with the Accounting Act B.E. 2543 and Thai Accounting Standards issued under the Accounting Professions Act B.E. 2547 and the financial reporting requirements promulgated by the Securities and Exchange Commission under the Securities and Exchange Act B.E. 2535. The translation of these financial statements to other language must conform to the official report in Thai.

The financial statements have been prepared on a historical cost basis, except as otherwise disclosed specifically.

2.2 New Accounting Standards

Accounting standards that became effective in the current accounting year and those that will become effective in the future are as follows :

Accounting standards that became effective in the current accounting year

Accounting Standards:

TAS 1 (revised 2012)	Presentation of Financial Statements
TAS 7 (revised 2012)	Statement of Cash Flows
TAS 12 (revised 2012)	Income Taxes
TAS 17 (revised 2012)	Leases
TAS 18 (revised 2012)	Revenue
TAS 19 (revised 2012)	Employee Benefits
TAS 21 (revised 2012)	The Effects of Changes in Foreign Exchange Rates
TAS 24 (revised 2012)	Related Party Disclosures
TAS 28 (revised 2012)	Investments in Associates
TAS 31 (revised 2012)	Interests in Joint Ventures
TAS 34 (revised 2012)	Interim Financial Reporting
TAS 36 (revised 2012)	Impairment of Assets
TAS 38 (revised 2012)	Intangible Assets

Financial Reporting Standards:

TFRS 2 (revised 2012)	Share-based Payment
TFRS 3 (revised 2012)	Business Combinations
TFRS 5 (revised 2012)	Non-current Assets Held for Sale and Discontinued Operations
TFRS 8 (revised 2012)	Operating Segments

Accounting Standard Interpretations:

TSIC 15	Operating Leases - Incentives
TSIC 27	Evaluating the Substance of Transactions Involving the Legal
	Form of a Lease
TSIC 29	Service Concession Arrangements: Disclosures
TSIC 32	Intangible Assets - Web Site Costs

Financial Reporting Standard Interpretations:

TFRIC 1	Changes in Existing Decommissioning, Restoration and Similar
	Liabilities
TFRIC 4	Determining whether an Arrangement contains a Lease
TFRIC 5	Rights to Interests arising from Decommissioning, Restoration
	and Environmental Rehabilitation Funds
TFRIC 7	Applying the Restatement Approach under TAS 29 Financial
	Reporting in Hyperinflationary Economies

Financial Reporting Standard Interpretations: (Continued)		
TFRIC 10	Interim Financial Reporting and Impairment	
TFRIC 12	Service Concession Arrangements	
TFRIC 13	Customer Loyalty Programmes	
TFRIC 17	Distributions of Non-cash Assets to Owners	
TFRIC 18	Transfers of Assets from Customers	

Accounting Treatment Guidance for Stock Dividend.

These accounting standards were amended primarily to align their contents with the corresponding International Financial Reporting Standards. Most of the changes were directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of the accounting standards. These accounting standards do not have any significant impact on the financial statements.

Accounting standards that will become effective in the future

The Federation of Accounting Professions has issued a number of revised and new accounting standards that become effective for fiscal years beginning on or after 1 January 2015. These accounting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of accounting standards. The management believes there is no any significant impact on the Company's financial statements in the year in which they are adopted. However, some of these accounting standards involve changes in key principles which will impact the Company, as discussed below.

TAS 19 (revised 2014) Employee Benefits

This revised standard requires that the entity recognizes actuarial gains and losses immediately in other comprehensive income while the existing standard allows the entity to recognize such gains and losses immediately in profit or loss, or in other comprehensive income, or to recognize them gradually in profit or loss.

TFRS 10 Consolidated Financial Statements

TFRS 10 prescribes requirements for the preparation of consolidated financial statements and replaces the part dealing with consolidated financial statements as included in TAS 27 Consolidated and Separate Financial Statements. This standards change the principles used in considering whether control exists. Under this standard, an investor is deemed to have control over an investee if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns, even if it holds less than half of the shares or voting rights. This important change requires the management to exercise a lot of judgment when reviewing whether the Company and its subsidiaries have control over the investees and determines which entities have to be included for preparation of the consolidated financial statements.

TFRS 13 Fair Value Measurement

This standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurements. Entities are to apply the guidance under this standard if they are required by other accounting standards to measure their assets or liabilities at fair value. The effect of the change from the adoption of this standard is to be recognized prospectively.

Based on the preliminary analysis, the management believes that this standard will not have any significant impact on the financial statements.

2.3 Basis of consolidation

The consolidated financial statements include the accounts of Asia Corporate Development Public Company Limited and its subsidiaries which are under the control with more than 50% of voting right as follows :

		Percentage of Shareholding (%)		
Name of Companies	Type of business	2014	2013	
Medalist Vision Company Limited Boost Plus Company Limited	E-commerce Providing service for indoor and outdoor events,	89.00	89.00	
Boost Flus Company Emilied	concerts and marketing activities	99.99	99.99	

Transactions with subsidiaries included in the consolidation have been eliminated.

The consolidated financial statements have been prepared with the same accounting policies for the separate financial statements for the same accounting transactions or accounting events.

As of 31 December 2014 and 2013, the total assets of subsidiaries represent 5.42 percent and 15.09 percent, respectively, of the total assets in the consolidated financial statements, and total revenues of subsidiaries for the years ended 31 December 2014 and 2013, represent 92.06 percent and 90.96 percent, respectively, of the total revenues in the consolidated financial statements.

The consolidated financial statements as at 31 December 2014 and 2013, and for the years ended 31 December 2014 and 2013 included the assets, liabilities, revenues and expenses of subsidiaries as follows:-

	(Unit : Thousand Baht) Consolidated F/S		
	2014		
Current assets	16,074	58,148	
Non-current assets	380	1,905	
Current liabilities	7,200	14,693	

	(Unit : Thousand Baht)		
	Consolidated F/S		
	For the years ended 31 December		
	2014 2013		
Total revenues	47,345	81,264	
Total costs and expenses	89,159	105,076	

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Revenue

Sales of goods and services rendered

Revenue from sales is recognized in the statement of comprehensive income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognized if there is continuing management involvement with goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Service income is recognized as services are rendered.

Revenues from online game services are recognized when gamers use services.

Sales of property

Revenues from sales of land and houses are recognized when the construction is completed and the ownership is completely transferred to the buyers.

Interest income

Interest income is recognized in the statement of comprehensive income on the accrual basis.

3.2 Cash and Cash Equivalent

Cash and cash equivalents include cash on hand and highly liquid cash in banks (which do not have restriction of usage) that are readily convertible to cash on maturity date with insignificant risk of change in value.

Restricted deposits with financial institutions are presented under non - current assets in the statement of financial position.

3.3 Trade Accounts Receivable

Trade accounts receivable are stated at the net realisable value. The Company and its subsidiaries provided allowances for doubtful accounts for the estimated losses that may incur in collection of receivables. The allowances are generally based on collection experiences and analysis of debtor aging, and the likelihood of settlement of debt, on specific accounts.

3.4 Temporary investments

Temporary investments consist of fixed deposit due within 1 year. The investments are stated at fair value.

3.5 Investment

Investments in subsidiaries

Investments in subsidiaries in the separate financial statements of the Company are accounted for using the cost method less impairment loss (if any).

Investments in equity securities

Marketable equity securities held for trading are classified as current assets and are stated at fair value. Gains or losses from valuation are recognized in the statement of comprehensive income.

Disposal of investments

On disposal of investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognized in the statement of comprehensive income.

If the Company and subsidiaries dispose of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

3.6 Inventories

Finished goods are valued at average cost and net realizable values, whichever is the lower. Net realizable values are based on the estimated selling prices in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Raw materials and supplies are valued at the lower of cost (first-in, first-out basis) and are charged to production costs whenever consumed.

Provision is made when necessary for slow - moving and defective inventories based on past experiences of the Company and subsidiaries.

3.7 Cost of property development projects

Cost of property development projects are stated at costs or net realizable value whichever is lower. Costs of property development include land cost, construction costs and expenses directly related to the development projects, including interest expense incurred from related loan interest.

The Company recognizes real estate development cost upon the transfer of title ship to the buyer.

3.8 Equipment

Equipment is stated at cost. Cost is measured by the cash or cash equivalent price of obtaining the asset to bring it to the location and condition necessary for its intended use. Equipment in the statements of financial position is stated at costs less accumulated depreciation and allowance for impairment of assets (if any).

The Company and subsidiaries depreciate equipment by the straight - line method over the estimated useful lives of assets based on the segregation of components, if each part is significant with different useful lives. Estimated useful lives of the assets are as follows :

Equipment	5	Years
Furniture, fixtures and office equipment	3 - 5	Years
Electricity and communication systems	5	Years
Vehicles	5	Years

Expenditures for expansion, renewal and betterment are capitalized. Repair and maintenance costs are recognized as expense when incurred.

3.9 Intangible Assets

Intangible assets with finite lives are amortized on a systematic basis on a straight - line method over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired.

A summary of the intangible assets with finite useful lives is as follows:

Royalty for trademark use (agreement)	10	Years
Computer program	5	Years

3.10 Cost of property development for sale

Cost of property development for sale consists of cost of land, land improvement, design fees, public utilities, construction and direct related interest and expense cost.

In determining the cost of residential condominium units sold, the anticipated total development costs (taking into account actual costs incurred to date) are attributed to land and houses sold and residential condominium units sold on the basis of the salable area.

Selling expenses directly associated with projects, such as specific business tax and transfer fee are recognized when sale incurred.

3.11 Impairment of assets

The Company and its subsidiaries regularly assess the possible impairment of assets. If any such indication exists, the Company and its subsidiaries make an estimate of the asset recoverable amount. Where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of comprehensive income. An asset recoverable amount is the higher of fair value less costs to sell and value in use.

3.12 Leases - where the Company and subsidiaries are the lessee

Leases of equipment where the Company and subsidiaries assumes substantially all the benefits and risks of ownership are classified as finance leases. Finance leases are capitalized at the fair value of leases of assets or estimated present value of the underlying lease payments whichever is lower. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the outstanding lease payments. Lease payments, net of financial charges, are recognized as liabilities under financial lease agreements. The interest expense is charged to statement of income over the lease period. Assets acquired under finance lease agreements are depreciated over the useful lives of the assets.

Leases of assets, under which all the risks and benefits of ownership are effectively retained by the lessor, are classified as operating leases. Payments made under operating leases are charged to statements of income on a straight – line basis over the lease period. When an operating lease is terminated before expiry date of the lease period, any payment required to be made to the lessor by way of penalty is recognized as an expense in the period in which termination takes place.

3.13 Employee Benefits

Short-term employee benefits

Salaries, wages, bonuses, contribution to the social security and provident fund, are recognised as expenses when incurred on the accrual basis.

Post-employment benefit (defined contribution plan)

The Company and its subsidiaries, and their employees have jointly established a provident fund plan whereby monthly contributions are made by employees and by the Company and subsidiaries. The fund's assets are held in a separate trust fund from the Company and subsidiaries' assets. The Company's and subsidiaries' contribution to the fund are recognised as expenses when incurred.

Post-employment benefit (defined benefit plan)

The Company and its subsidiaries have obligation in respect of the severance payment they must make to employees upon retirement under the labour law. The Company and subsidiaries treat these severance payment obligations as a defined benefit plan.

The Company and subsidiaries account for the obligation for the post – employment benefits by actuary based on actuarial techniques, using the projected unit credit method.

The Company recognizes this obligation in the statement of financial position based on present value of their obligation at the reporting date together with adjustments for actuarial gains or losses and past service costs. Actuarial gains or losses would be recognized in other comprehensive income.

3.14 Financial instruments

Financial assets shown in statement of financial position comprise of cash and cash equivalent, investments, trade accounts receivable and loan. Financial liabilities shown in statement of financial position comprise of trade accounts payable and borrowings. The accounting policy of each item is disclosed in separate items.

3.15 Basic earnings per share

Basic earnings per share is determined by dividing income (loss) for the year by the weighted average number of common shares outstanding during the year.

3.16 Diluted earnings per share

Diluted earnings per share is calculated by dividing the net income for the year by the number of common shares and the number of equivalent common shares (warrant) by weighted according to the period of time as if there were conversion of common shares at the issued date of issuance of equivalent common shares.

A calculation is done to determine the potential number of shares that could have been acquired at market price (determined as the average share price of the Company's shares during the year) based on the outstanding warrants to determine the number of potential common shares to be additionally issued. The potential shares are added to the outstanding common shares but no adjustment is made to statement of comprehensive income.

3.17 Income tax

The income tax expense for the period comprises current and deferred income taxes. Current and deferred income taxes are recognized in profit or loss, except to the extent that it relates to items recognized directly in equity or other comprehensive income.

3.18 Related parties

Related parties comprise enterprises and individuals that control, or are controlled by the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies and individuals which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and directing the Company's operations.

3.19 Foreign currencies transactions

Transactions in foreign currencies are translated into Baht at the foreign exchange rate ruling at the date of transaction. Balances of monetary assets and liabilities, dominated in foreign currencies, at the reporting date are translated into Thai Baht at the foreign exchange rate ruling at that date. Gain or loss arising from translation is recognized in the statement of comprehensive income.

3.20 Segment reporting

Segment results that are reported to the Group's executive committee (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

3.21 Use of accounting estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumption that affect the reporting amounts of revenues, expenses, assets, liabilities and disclosure of contingent assets and liabilities. The actual result may differ from those estimates.

3.22 Provision for liabilities and expenses, and contingent assets

Provisions are recognized in the financial statements when the Company and its subsidiaries have legal or constructive obligation as a result of past events with probable outflow of resources to settle the obligation and where a reliable estimate of the amount can be made. The contingent asset will be recognized as separate asset only when the realization is virtually certain.

4. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTION AND JUDGMENT AND CAPITAL RISK MANAGEMENT

4.1 Critical accounting estimates, assumption and judgments

4.1.1 Impairment of receivables

The Company and subsidiaries set allowance for doubtful accounts equal to the estimated collection losses that may incur in the collection of receivables. The estimated losses are based on uncertainty in the collection as considered by the management. 4.1.2 Allowance for slow-moving and decline values of houses and condominium units

The Company maintains allowances for slow-moving and decline values of condominium units to reflect impairment condominium units. The allowance is based on consideration of houses and condominium units turnovers and deterioration of each category.

4.1.3 Allowance for slow - moving and defective inventories

The Company and subsidiaries estimate allowance for slow - moving and defective inventories to reflect impairment of inventories. The allowance is based on the management's consideration of inventory turnovers and deterioration of each category.

4.1.4 Equipment and intangible assets

Management regularly determines the estimated useful lives and residual values of the Company and its subsidiaries' equipment and intangible assets, and will revise the depreciation where useful lives and residual values previously estimated have changed or subject to be written down for their technical obsolescence or if they are no longer in used.

4.1.5 Impairment of investments

The Company treats investments as impaired when there has been a significant or prolonged decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires management judgment.

4.1.6 Leases

In determining whether a lease is to be classified as an operating lease or finance lease, management is required to use judgment as to whether significant risk and rewards of ownership of the leased assets have been transferred to the Company and its subsidiaries, taking into consideration of terms and conditions of the arrangement.

4.1.7 Impairment of assets

The Company and its subsidiaries treat assets as impaired when there is significant or prolonged decline in the fair value below their costs or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires management judgment.

4.1.8 Post-employment benefit under defined benefit plans

The obligation under defined benefit plan is determined based on actuarial valuations. Inherent within these calculations are assumptions as to discount rates, future salary increases, mortality rates and other demographic factors. In determining the appropriate discount rate, management selects an interest rate that reflects the current economic situation. The mortality rate is based on publicly available mortality tables for the country. Actual post-retirement costs may ultimately differ from these estimates.

4.1.9 Deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Group's future taxable income against which the deductible temporary differences can be utilized. In addition, management judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

4.2 Capital risk management

The Company's objectives in the management of capital is to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust dividend payment policy, issue new shares or issue new debentures to finance debts or sell assets to reduce debts.

5. CASH AND CASH EQUIVALENTS

			(Unit : Th	ousand Baht)	
	Consolidated F/S		Separate	rate F/S

Total		41,070		36,595
Less Allowance for obsolete and decline value				
of inventories		(32,192)		(31,517)
Net	-	8,878	-	5,078

During the year, the Company estimated and made adjustment to allowance for decline value of inventories as follow:

			(Unit : T	housand Baht)		
	Consolidated F/S					
	2013	Increase	Decrease	2014		
Allowance for obsolete and decline						
value of inventory	32,192	-	32,192	-		
			(Unit : T	"housand Baht)		
		Separ	rate F/S			
	2013	Increase	Decrease	2014		
Allowance for obsolete and decline						
value of inventory	31,517	-	31,517	-		

During the year, the Company sold major inventories and reversed allowance for obsolescence of Baht 31.52 million.

9. COSTS OF PROPERTY DEVELOPMENT PROJECTS

	Consolidated / Separate F/S			
	2014	2013		
Land and buildings	128,000	160,868		
Construction costs	27,061	55,761		
Utilities and systems	8,267	20,034		
Other costs	2,514	5,920		
Total	165,842	242,583		

(Unit : Thousand Baht)

Condensed movements in cost of project developments for the year ended 31 December 2014 are as follow :

	(Unit : Thousand Bal		
	Consolidated /Separate F/S		
Cost of projects development as at 1 January 2014	242,583		
Increase during the year	70,144		
Decrease from sales of project during the year **	(146,885)		
Net book value as at 31 December 2014	165,842		

** The decrement from sales of project represent the disposal of all the property under development to another entity with agreed upon prices during the 1st quarter of the year. The proceeds from such sale was significantly lower than value appraised by independent appraiser because the management considered that extending the year would cause additional expenses to the Company. In addition, it would be difficult to find buyer. Since the Company needs fund for developing other projects, it therefore, decided to dispose of such property to the party with negotiated highest price and recorded the loss from sales of project in the statement of comprehensive income.

10. ADVANCE PAYMENT FOR CONCERT

During the year, the subsidiary set up the provision for loss on advance payment for concert amounting to Baht 23.41 million because it cannot expect to be able to arrange for the organization of the concert within the period determined in the agreement in February 2015. This is presently in the process of negotiation with its partner to extend the period for the organization of the concert.

11. INVESTMENTS IN SUBSIDIARIES

	Separate F/S

(Unit : Thousand Baht)

13. DEPOSIT FOR LAND PURCHASE

During the year, the Company's management had considered that the property development projects have not been processed as planned. It therefore, arranged to transfer the right of the deposit for land purchase of Baht 56 million to other company at cost with the first installment to be made in December 2014 of Baht 5 million and the remaining amount will be settled in June 2015. The Company has already transferred the right on deposit for land purchase to the receiver of the transfer. Whereas, the receiver of the transfer does not have any relationship with the Company and the transfer of the deposit is secured with a post - dated cheque from a director of such Company of Baht 51 million.

17. AUTHORIZED SHARE CAPITAL AND WARRANT

17.1 Share Capital

At the Annual General Meeting on 30 April 2013, shareholders passed a resolution for increasing the share capital from Baht 250,000,000 to Baht 1,275,000,000 (1,275,000,000 shares, par value at Baht 1) which details as follow:

- 17.1.1 Alloting to existing shareholders' not exceeding 100,000,000 shares (par value at Baht 1) at the ratio of 2.5 existing common shares to 1 newly issued share at the offer price of Baht 1 per share.
- 17.1.2 Alloting not exceeding 125,000,000 shares (par value at Baht 1) to support exercisable warrants, which have been issued to existing shareholders.

- 17.1.3 Alloting not exceeding 50,000,000 shares (par value at Baht 1) to support exercisable warrants, which have been issued to existing shareholders who had subscribed new shares at the ratio of their shareholding.
- 17.1.4 Alloting to specific investors by way of private placement not exceeding 500,000,000 shares (par value at Baht 1) at the offer price not lower than 90 percent of the market price.
- 17.1.5 Alloting to specific investors by way of private placement not exceeding 250,000,000 shares (par value at Baht 1) to support exercisable warrants, which will be offered to specific investors.

During the year 2013, the Company called for payments for newly authorized share capital as follow;

Condition as mentioned in Note	Number of shares (shares)	Amount (Baht)	Registered with Department of Business Development
17.1.1	100,000,000	100,000,000	18 July 2013
17.1.2 and 17.1.3	13,210,050	13,210,050	16 December 2013
17.1.4	16,000,000	16,000,000	16 December 2013
	18,200,000	18,200,000	24 December 2013
Total	147,410,050	147,410,050	

Premium on share capital derived from share increment of specific investor by way of private placement (17.1.4) which the Company has offered the price at Baht 1.65 per share (Par value at Baht 1).

17.2 Warrant

At the Ordinary Meeting on 30 April 2013, the shareholders passed a resolution

- 17.2.1 To issue and allocate MME-W2 ("warrant no.2") to existing shareholders at 2 shares for 1 unit of warrant totaling 125,000,000 units and to existing shareholders who had subscribed new shares at the ratio of their shareholding 2 shares for 1 unit of warrant totaling 50,000,000 units
- 17.2.2 To issue and allocate MME-W3 ("warrant no.3") to specific investors by way of private placement at 2 shares for 1 unit of warrant totaling 250,000,000 shares.

One unit of warrant is exercisable to purchase one ordinary share at Baht 1 each within three years starting from 7 June 2013 to 7 June 2016.

At the Extraordinary shareholder meeting 1/2013 on 4 October 2013, the shareholders passed a resolution approving the modification of the name in warrant from Mida-Medalist Entertainment Public Company Limited warrant no. 2 and 3 (MME-W2 and MME-W3) to Asia Corporate Development Public Company Limited warrant no. 2 and 3 (ACD-W2 and ACD-W3).

On 26 December 2014, the warrant holders exercised warrant no. 2 totalling 1,050,200 units to 1,050,200 common shares with exercise price of Baht 1 per share. The Company has additionally paid-up share capital of Baht 1,050,200. As at 31 December 2014, the Company has 160,739,750 units of outstanding unexercised warrants. The last exercise date will be due on 31 May 2016.

18. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net profit attributable to shareholders of the Company by the weighted average number of common shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the weighted average number of outstanding warrants is assumed to be converted to common shares that dilute the total number of shares.

A calculation is done to determine the potential number of shares that could have been acquired at market price (determined as the average share price of the Company's shares during the year) based on the outstanding warrants to determine the number of potential common shares to be additionally issued. The potential shares are added to the outstanding common shares but no adjustment is made to statement of comprehensive income.

19. LEGAL RESERVE

Under the Public Companies Act B.E. 2535, the Company is required to set aside as a statutory reserve at least 5 percent of its net income, after deduction of deficit (if any), until the reserve reaches 10 percent of the registered capital. The reserve is not distributable for dividends.

20. DEFERRED INCOME TAX ASSET AND LIABILITY

The tax losses and other allowances are considered as temporary differences for tax purpose that have not been expired under current tax legislation. Currently, the Company has not recognised deferred income tax on such items because it is not probable that the Company will have future taxable income to utilise tax benefits on them.

21. EXPENSES BY NATURE

	Consolidated F/S		(Unit : Thousand Baht) Separate F/S	
	Fo:	r the years ende	d 31 December	
	2014	2013	2014	2013

Administrative expenses							(81,278)	(67,948)
Interest revenue							448	902
Finance cost							(35)	(124)
Loss for the years							(82,378)	(99,579)
Property, plant and equipment - net							1,532	3,760
Other assets							302,187	394,222
Total assets							303,719	397,982

Revenue and cost from sales occurred from clearance sales of dead stocks that the Company had fully set up allowance for loss.

Major Customer

A subsidiary has income from a major customer, Montery Park Resort Company Limited of Baht 12.88 million which is a one – time engagement for the event during the year.

23. COMMITMENTS AND CONTINGENT LIABILITIES

- As at 31 December 2014, the Company and its subsidiaries have:
- 23.1 Commitment on construction agreement, building and furniture improvement agreement amounting to Baht 13.25 million.
- 23.2 Commitments under operating lease agreements

The Company and subsidiaries have commitments to pay for the vehicles lease payments and building lease agreements as follows:

	Million Baht		
Vehicle lease agreements			
Within			
1 year	0.18		
Building lease agreements			
Within			
1 year	2.41		
2 - 5 years	3.17		

24. FINANCIAL INSTRUMENTS

Financial risk management

The Company's financial instruments principally comprise cash and cash equivalent, restricted deposits with financial institutions; trade accounts receivable, loans, investments and finance lease payables. The accounting policies on recognition and measurement of these items are disclosed in the respective accounting policies in Note 4 to the financial statements.

The Company has the financial risks associated with these financial instruments and managed the risk as described below.

Credit risk

The Company has exposure to credit risk primarily with respect to trade accounts receivable, loans, and other receivables. The Company manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses since most of the credit granting is covered with contracts and guarantees. The maximum exposure to credit risk is limited to the carrying amounts of receivables, loans, and other receivables as stated in the statement of financial position.

Interest rate risk

The Company's exposure to interest rate risk relates primarily to its cash at banks and short-term loans from financial institutions, short-term loans and finance lease payables. However, since most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

Significant financial assets and liabilities as at 31 December 2014 and 2013 classified by type of interest rates are summarized in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the re-pricing date (if this occurs before the maturity date) are summarized as follows:

			(Unit	: Million Baht)	
		Consolida	ated F/S

Fair value

The financial asset and liability are mainly reclassified in the type of short term by natures. Long-term loan from merchant bank bears interest rate under the same basis as the market. The management believes that book value of such financial asset and liability reflects value materially indifferent from fair values.

25. APPROVAL OF FINANCIAL STATEMENTS

These financial statements have been approved by the Company's board of directors on 27 February 2015.
