**Voluntary Right of Investor Protector from Thai Investors Association attending the Meeting:**

● **Dr. Wirat Thongpitakkul**

The person verifying and examining the vote was OJ international co, Ltd. that recorded the vote and act as the witness of the vote verification of this meeting.

In this regard, there was 1 representative from a minor shareholder who witnessed the voting process. Ms. Waraporn Duangprom is a shareholder attending the meeting in person.

**Minutes Recorder :**

**Ms.Sarunrat Seesun    Company Secretary and Moderator**

Before meeting, Ms.Sarunrat Seesun ,Moderator introduced the Committee, Executives and attending shareholders and announced the agendas which will be considered today, totally 8 Agendas, the details were presented in the Invitation Letter for the year 2024 and in order for the meeting to be in accordance with the good governance in terms of voting and the meeting practices, the methods of counting the shareholders' votes had to be clarified. The shareholders were required to vote for a resolution for each agenda. The meeting regulation for this meeting according to the practices and regulation is as follows:

1. One shareholder has number of vote equal to number of shares held. Shareholder may either vote **Agreed / Disagreed / Abstained** in each agenda. In case of foreign shareholder, who appointed a custodian in Thailand to hold shares and look after their interest on their behalf, may separately vote approved, not approved, or abstained at the same time in each agenda by dividing number of vote equal to number of shares they hold using the ballots acquired at the registration. In case voting is different from the method mentioned above, such voting shall be considered as invalid.
2. In counting the votes, only the votes of disapproval or abstention will be counted, **except for the election of directors in Agenda 5**, with the **dissenting** and **abstaining** votes Deducted from the total votes attended The remaining votes will be considered votes that agree in that agenda. The shareholders who cast votes **in disagreement or abstain** shall raise their hands so that the officer will walk to collect the ballot to record and summarize the results for further acknowledgment.  
  
In this regard, the voting in this meeting. It was an open voting. Not a secret vote But the ballot papers for all attendees were collected after the meeting for transparency.
3. To ensure that the company complies with the guideline of quality evaluation of good shareholders' meeting, therefore, **in the agenda 5, which is the agenda that approves the election of director to who will be replacing director who resigns**. The company will collect the ballots from shareholders in attendance for all **approved, not approved, and abstained votes**. All shareholders were requested to tick either the **approved, not approved, or abstained** box as well as sign the ballots and raise their hands. The staffs would collect the ballots from shareholders to count how many shareholders **voted approved, not approved, or abstained**. For the proxies who did not get the ballots at the registration, it means that shareholders have already voted in the power of attorney, which such vote would have already been specified consistently with the vote of the shareholder in such power of attorney.
4. If any agenda is the same, Chairman of the meeting shall have one more vote as a casting vote.
5. The result of the vote will be indicated in the vote. **Agreed /Disagreed /Abstained**, each agenda item will use the latest number of shares.
6. The shareholders who submitted the ballots **Disagreed /Abstained**, after the company closed the ballots for each agenda. The Company will not include calculation that votes to determine the score again.

Before the voting to each agenda starts, all attendants have chances to ask questions concerning all respects of the agenda. The shareholders who desire to ask questions have to inform the agenda of their names and family names before asking questions so that the meeting minute can be properly made. In case where a shareholder has any question or opinion concerning any issue other than the agenda that is being considered, that shareholder can ask the question or express the opinion in the latter sessions of the meeting.

**Start meeting: 10 AM.**

Ms.Sarunrat Seesun , the moderator of the meeting, gave welcome greeting to all attendants of 2024 Annual General Meeting of Shareholders Meeting by informing the agenda that Green Resources Public Company Limited welcomed all the attendants of 2024 Annual General Meeting of Shareholders with the following information.

**Agenda 3** **To consider and approve the Financial Statements and Consolidated Financial Statements of the Company for the accounting period ending 31<sup>st</sup> December 2023.**

The Chairman informed the meeting that this agenda was to consider and approve the Company's statement of financial position and comprehensive income statement for the past fiscal year, which had been audited by an authorized auditor and considered. Liked by the Audit Committee Details are shown in the 56-1 One Report form and the annual financial statements in QR Code format that have been sent to all shareholders in Attachment 2 along with the meeting invitation letter. Details appear in Enclosure 2. In order to comply with the Company's Articles of Association and Section 112 of the Public Limited Companies Act B.E. 2535, which stipulates that the Board of Directors Prepare financial statements at the end of the Company's fiscal year Propose to the shareholders' meeting in the annual general meeting.

The Chairman invited Mr. Pipat Viriyamettakul, the Chief Executive Officer (CEO) to present this to be considered the approval of the financial statement and the company's total annual financial statement ended on 31<sup>st</sup> December 2023.

Unit : million baht	Consolidated financial statements		Separate financial statements	
	Year 2023	Year 2022	Year 2023	Year 2022
total assets	1,044.87	1,105.15	705.64	746.01
total liabilities	277.69	306.95	7.12	7.67

operating income	127.50	164.67	42.10	70.94
Profit (loss) for the year	(30.72)	(6.44)	(39.55)	(20.38)
Equity	767.19	798.20	698.52	738.34
Profit (loss) per share	(0.04)	(0.01)	(0.05)	(0.02)

The Chairman gave shareholders an opportunity to ask questions, or express your opinion There was one shareholder who asked, namely Mr. Tai Chong Yih. The Company has collected the questions as follows:

**1. Can the company explain the company's losses?**

**Answer** Mrs.Thanida Inthachak clarified to shareholders as follows:

- From the operating results for 2023, separated by the company's income. Excluding other income, total income is approximately 115 million baht. Operating expenses are 104 million baht when expenses are deducted. Profit from operating results was 10 million baht. However, when deducting other expenses, including losses from measuring the shares value of investments in Aura Dream in the amount of 3.8 million baht and from other shares in the amount of 10.9 million baht and losses from sales. Shares amounted to 23 million baht, resulting in a relatively high loss. and cause a loss This has been an accumulated loss for a long time and 2 years ago, in 2020 - 2021, the financial statements had a profit, but in 2022 - 2023 the financial statements were at a loss. The items that cause losses are the sale and measurement of the value of shares.

**2. Which shares the company has invested in ?**

**Answer** Mrs.Thanida Inthachak clarified to shareholders as follows:

- Currently, there are 4 shares in which the company invests.

Note: The company would like to clarify additional facts from the meeting date. In order to match the facts for all shareholders to have the same understanding, there are currently 5 shares invested in:  
STA/BCH/CGH/DCC/LANNA.

**3. What shares were sold. How much is the loss?**

**Answer** Mrs. Thanida Inthachak clarified to shareholders as follows:

- In 2020, there were 2 losses, namely STGT (Sri Trang) and STA, but if the company still holds them, it will cause more losses. Therefore, had to write off sales

The Chairman further clarified as follows:

- In the past, the company There is limited money. There is a project for which we need money. If you remember, the company had asked for a capital increase 2 times, which did not pass the meeting's resolution. However, due to the duties of the executive committee Therefore, the potential that is in the system must be used to earn additional income. Because I look at ways to invest in the shares market. I believe that what I see is correct. But this time was a mistake. I admit that I made a mistake. Like Sri Trang shares that you invest in. Because when we invested in Sri Trang, there was a profit of over 20 billion. And the dividends were quite large. The shares price was over 30 baht. At that time, I remember that there was a shortage of rubber gloves. It reflects the shares price jumping up. This makes Sri Trang very profitable. I limit my investments to a certain level. Accumulated dividends are approximately 50 million baht. If we deduct dividends, we won't have a big loss. And most of the shares we now hold. The money we hold now will determine our profits every quarter. Suppose that at the end of last year in December, Sri Trang was at 16.1, now it has reached more than 18-19 baht. Therefore, this quarter must return to profit, that is, we sold some of our shares. But most of the time we don't sell. Therefore it will be in the system. which I don't look at the shares price as the main thing I look at whether the shares we invest in have dividends or not. Sri Trang, even with a loss, still has a dividend of over 1 baht. If we don't look at the market price, Because of our shares, our company invests in the business. If we look at it, it is not on the shares exchange. Then give a dividend of 1 baht from the shares price of over 20 baht. The dividend of 1 baht is more than the interest. If we look at the picture of this investment, we didn't borrow it. Therefore, all of the shares that we invested in paid dividends. You can go look at them. Last year was a bad market period. The shares price plummeted to a very low level. Now if measured by the closing price of every quarter. From now on, I see that we will not suffer a loss. Please be at ease on this issue. will yield more dividends

**4. Sri Trang shares (STGT), how much was the original purchase price? And how much was the total investment? And since the beginning, have you been investing in Sri Trang (STGT) shares for 2 years?**

**Answer** Mr.Pipat Viriyamettakul clarified to shareholders as follows:

● There is both buying and selling. Sri Trang invested a total of 1.5million shares, with an average price of 27.08 baht. In 2021, the company sold them, earning a profit from this shares of approximately 20 million baht, and in 2022 there was another sale. (Mrs. Thanida Further clarification)

**5. Investing in over a million shares Total not more than 20 million baht. If there is a loss, how can we close the budget of over 20 million?**

**Answer** Mrs.Thanida Inthachak clarified to shareholders as follows:

- The cost is approximately 40 million baht and the current price is 16.9 baht. At present, Sri Trang costs 40 million baht, but the value is 25 million baht. The price on April 3, 2024 is a loss of 15 million baht.
- Prices of Sri Trang are averaged. The first purchase cost about 30 baht. In 2019 - 2020, it was sold for about 18.6 baht.

**6. I would like to ask the investment committee. I bought it for over 30 baht. Why did I sell it for over 20 baht when the price dropped? The committee responsible for the investment How is it done?**

**Answer** The Chairman explained that

- When the company bought for over 30 baht and sold for over 40 baht, it didn't buy for 30 and sold for over 20 baht. It was also sold for over 40 baht.

**Mrs. Thanida Inthachak further clarified that**

- Sri Trang shares were first bought for about 40 baht. When the price went up, sold for a profit of approximately 19 million baht. The following year, they were sold 2 times, with a loss of 45 million baht and a loss of 23 million baht. Accumulated losses from 2021 to 2023, losses from selling shares approximately 50 million baht.

**7. Things invested lost at profit or lost at loss? In conclusion, is it a loss or a profit?**

**Answer:** Mrs. Thanida Inchak clarified that the current price is as follows:

- STA : Sri Trang      1.5 million shares    cost 40 million baht    current value 25 million baht.
- DCC: Dynasty      30 million shares    cost 58 million baht    current value 53 million bah
- CGH : Country Group    10 million shares    cost 8.6 million baht    current value 6.8 million baht.
- BCH : Kasemrad      2 million shares    cost 38.7 million baht    current value 41.4 million baht.

- LANNA 1.2 million shares cost 18 million baht current value 16 million baht.
- In summary, the total loss is 11.3 million baht, which if compared with the financial statements that will be approved by shareholders today. During that time, the loss was 28.3 million baht. The Chairman explained that

**8. I don't know if the investment committee Investment analysis time Considered by the Chairman Just one person or There is analysis from the entire investment committee.**

**Answer** The Chairman explained that

- There are investment considerations and I will have to provide key advice. We have to consider which funds are profitable and some of our reasoning during this period is that we have to consider the fairness of whether the content of the market today is good or bad, that is, it is the whole shares price system tonight, over 30 points.

**9. Green Public Company Limited is not a fund company. Is investing in shares putting too much emphasis on investing?**

**Answer** The Chairman explained that

- The companies we invest in are good companies. We invest in the future We do not invest without careful consideration. We invest in the future Every share invested is studied. It is an investment like doing a business.

**10. How much the current investment portfolio has total value.**

**Answer** Mr.Pipat Viriyamettakul explained that

- Currently, the investment portfolio value is approximately 140 million baht.

**11. 140 million baht equals almost 20% of the company's value. I don't know what the Risk Committee's opinion is. Are the company's risks considered when putting 20% of the company's value at risk?**

**Answer:** The Chairman explained that

- Every business has risks. It depends on whether there is more or less risk.

**12. Should the company have Oversight or Mechanism to reduce this risk? Is there not?**

**Answer:** The Chairman explained that

- We consider business. Every business that the company invests in. It will take an in-depth look at what the company has been like in the past.

**13. At present, are the financial statements of Green Public Company Limited affected by the value of investments that erase operations? And currently, in each quarter of the company Depends on the company's investment which is not quite correct.**

**Answer:** The Chairman explained that

- Considering the main business, the company has had a profit of approximately 10 million baht in the past. The operating results in Q1 will be profitable.

**Mr. Pipat Viriyamettakul explained that**

- First we invested in a solar farm. Because I want the company to have more income than expenses. Let the company have long-term and present we pay installments with the bank for another 6 years or so. If we pay all the installments to the bank, We will have a profit of 50 million baht in one year, profit from the Core Business. Now, along the way, there have been a lot of projects that have been presented to me, especially during the COVID period but the company didn't have enough money to invest there, so it was cut through. But we have money to invest in shares now. Including debentures. Because along the way we have money returned to the company. There was discussion at the investment committee meeting. I don't agree with depositing money in the bank. Because if you leave it with the bank Just inflation alone. The interest on deposits in the bank has all disappeared. So I thought it would be an investment. With a minimum return of approximately 7-8%, this is money that comes from the Core Business and already has a long-term contract with the Electricity Authority. I think there is no risk here. But if we deposit the money in the bank and hit by inflation This is something you shouldn't do with your investments.

**14. When the company has over 100 million to invest. Why isn't the money used to pay interest on bank loans? And what is the current interest rate on loans?**

**Answer:** Mr.Pipat Viriyamettakul

- The company did not invest over 100 million at one time. The company invested gradually. When the company has a cash balance of 10 million baht, I will invest the money. Reasons for

not using money to pay off bank loans Because I used it to buy bonds and dividend shares. This has an interest profit margin of approximately 4%. The dividends we receive are more than the amount of interest we have to pay to the bank.

At the same time, Dr. Wirat Thongpitakkul Volunteer to protect shareholders from Thai Investors Association Gave suggestions as follows:

- The first case from what I have read about the company's operating policy. Understand that our objectives change in many ways as the economy changes. Currently we will focus on energy and real estate. Just a moment ago, I saw there was talk about investment budgets. In addition to investing in our business Talk about the case of accumulated losses. But we focus on the case of investing only in the shares market. And there was talk of dividends. In the case that we are a public company We invest and receive dividends and also have taxes because we are a legal entity. If we say that we take dividends and consider them as profit, it means that we are subject to double tax. It is an operation which has an observation. Therefore, in many places what they do is that what we sell is a result of the upward trend of investment in the market. But saying that it is part of a long-term investment that emphasizes dividends to shareholders is probably not a long-term investment. I want to hear about profit and loss. I want to hear about our core mission. not mentioned But in the financial statement I see If just now the president said that profits It shows that the loss is quite a lot from the investment. You may have to consider the investment and risks. I expect that every company must do this. Which affects financial risk as well, especially since we are a company on the shares exchange. I mainly think about all shareholders. This is something I noted about before. thank you very much

**Answer:** The Chairman explained that

- Normally, Green Public Company Limited is a company with limited investment capital. We will have several projects in the past. We have asked for a capital increase 2 times and it turned out that it was not passed. Major shareholder There are objections, making us unable to do anything further. What is very difficult? However, I did not give up. I will do my best to improve here. The issue is whether dividends from investments are subject to double taxation or not. I have asked the auditor. I see that it is not redundant.

The Chairman opened the floor for shareholders to ask questions or comment when there were no shareholders wishing to make inquiries or express additional opinions, the Chairman then presented it to the meeting to

consider approving the company's financial statements and consolidated financial statements for the year ending on 31<sup>st</sup> December 2023

**Resolution** The Meeting considered and approved the financial statements for the year ended 31<sup>st</sup> December 2023 with the majority of the shareholders attending the meeting and voting as follows:

Agreed	375,350,414	Shares	Percentage	66.624
Disagreed	-	Shares	Percentage	-
Abstained	188,037,602	Shares	Percentage	33.376
Voided ballot	-	Shares	Percentage	-
<b>Total</b>	<b>563,388,016</b>	<b>Shares</b>	<b>Percentage</b>	<b>100.0000</b>

Before entering the meeting on agenda 4, Mr. Tai Chong Yih, a shareholder, left the meeting.

By giving ballots for the remaining agenda to the management in charge of the meeting.

**Agenda 4** **To consider and approve the omission of the allocation of profits and not paying the dividend payment for the operational results of the year 2023.**

The Chairman informed the shareholders that the Company has a policy to pay dividends to shareholders at least 30% of the net profit after corporate income tax deduction. However, the company will take into account Structure and financial status, investment plans, and economic conditions. From the operating results of the company in 2023 will have a net profit. But the company is still unable to pay dividends. because there are still accumulated losses Therefore, it is appropriate to propose to the shareholders' meeting to consider refraining from paying dividends. and refrain from allocating profits as a legal reserve for the operating results for the year 2023, details are as follows:

Unit : million baht

Dividend payment details	Year 2023	Year 2022
1. Net profit (loss)	(39,556)	(20,379)
2. Cumulative loss	(713,744)	(713,744)
3. Number of shares (shares)	818,025	818,025
4. Dividend per share (Baht: shares)	Pay off	Pay off
5. Total dividend payment (Baht)	Pay off	Pay off
6. Dividend payout ratio	Pay off	Pay off

In this regard, in terms of allocating profits as a legal reserve. The company has completed a complete survey. Therefore, there is no need for additional backup.

The Chairman opened the floor for shareholders to ask questions or comment when there were no shareholders wishing to make inquiries. The Chairman then proposed to the meeting to approve the omission of profit allocation and no dividend payment for the year 2023 operation.

**Resolution**

The Meeting considered and approved the omission of the allocation of profit and omission of dividend payment for the results from the operation in 2023 with the votes from the majority of the shareholders attending the meeting and voting as follows:

Agreed	563,287,916	Shares	Percentage	99.982
Disagreed	-	Shares	Percentage	-
Abstained	100,100	Shares	Percentage	0.018
Voided ballot	-	Shares	Percentage	-
